The Main Cycle Route

Brief description

Unforgettable impressions are in store for cycling enthusiasts travelling through the enormous variety of scenery offered by the Main Cycle Route. Past beer cellars and vineyards, unique holiday regions, verdant countryside and towns of widely differing character.

The Bavarian section of the Main Cycle Route is uniformly well signposted in both directions all the way from the place where the River Main flows into the Rhine near Mainz to its source.

The cycle path follows a very family-friendly route, primarily running off the busy roads on level, for the most part asphalted paths.

If you start in Aschaffenburg, in Kulmbach you have two options: the route along the Red Main takes you with almost no inclines to Bayreuth and on to the source of the Red Main near Creussen. The section along the White Main runs via Wirsberg and Bad Berneck in the Fichtelgebirge to Bischofsgrün.
